# About Amvale

Amvale was founded over 30 years ago by our CEO Mike Godfrey. Initially specialising in local authority transport for children with additional support needs, Amvale soon expanded into medical transport on behalf of the NHS.

After a strong track record in medical services for the public and private sectors, Amvale acquired its Scottish division - Amvale Scotland. The Glasgow-based team continue to offer a complete range of ambulance services whilst also focusing on their own specialisation of high quality, adaptable event medical services.

## Expert Clinicians Dedicated to Patient Centred Care

Our team have a wealth of experience across all areas of safe event delivery. We can supply everything from First Aiders through to Ambulances with Paramedics and on-site hospital facilities with Doctors and Nurses.

HCPC Registered Paramedics and NHS Trained Ambulance Technicians qualified in emergency blue light driving.

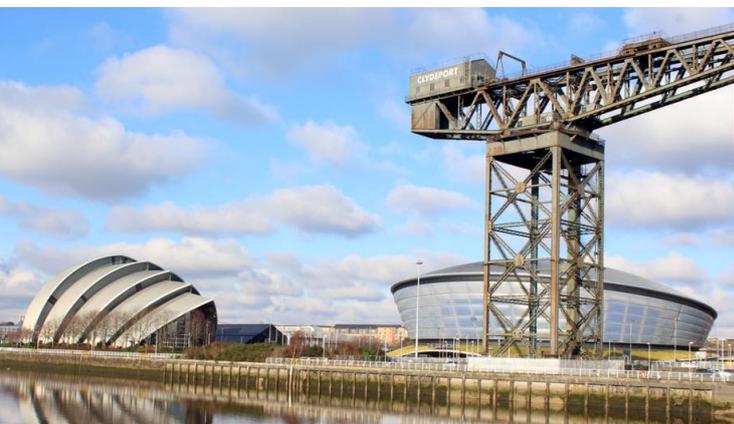

GMC Registered A&E Consultant Doctors and NMC Registered Emergency Nurses.

Experienced Command & Control staff qualified in Major Incident Medical Management & Support (MIMMS).

First Aiders qualified to at least Emergency First Responder level to meet Purple Guide recommendations. All training is undertaken by our in-house Instructor and monitored by Clinical Governance.

## We are the exclusive Medical Services Supplier to the SEC & SSE Hydro

Our team deliver complete medical cover throughout the Scottish Event Campus for their diverse range of events. We've adapted our services for some of the most challenging gigs in the business so you can be assured that we are a dependable provider focused on outstanding care and protecting your brand image.

# Safe and Effective Patient Transport Solutions

Amvale has a long history of patient transport services on behalf of the NHS, insurance industry and private customers.

We can supply a BLS ambulance with Ambulance Care Assistants or an ALS ambulance led by a Paramedic depending on the clinical need for the patient.

All of our ambulances are maintained in-house and subject to regular thorough cleaning and inspection. Our team's focus is on ensuring the patient reaches their destination in a dignified and comfortable manner using the most efficient route.

Our operational control can mobilise crews at short notice and track the journey in real time using our online dispatch system.

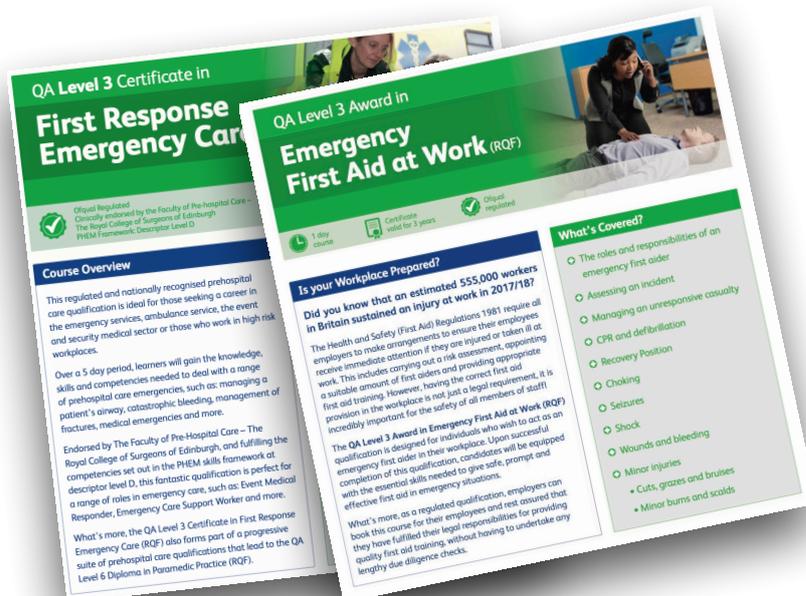

## Other Services Include:

- Emergency transport of emergency medical personnel, human tissue and case notes.
- Secure Mental Health Transport
- First Aid, Mental Health & Pre-hospital Care (FREC) courses.

Visit our website [www.amvalescotland.com](http://www.amvalescotland.com) for more information

## First Aid, Mental Health & Prehospital Care (FREC) Courses

Amvale Medical Instructors are registered to deliver a range of courses including:

- QA Level 3 Award in Emergency First Aid at Work
- QA Level 3 Certificate in First Response Emergency Care (FREC 3)
- QA Level 2 Award in Understanding Mental Health in the Workplace
- & many more
